

A TIME TO

'Lift Up Your Head' in CONFIDENT HOPE

THE evidence that we are far along in the "last days" can be either good news or bad news to you, depending on the position you take. If you long to be free from a rule that has proved both unsatisfactory and unrighteous and that is torn more and more by discord and confusion; if you really love what is right and have a sincere desire to do the will of your Creator, then this evidence should make you rejoice. Why? Because, as Jesus Christ said: "As these things start to occur, raise yourselves erect and lift your heads up, because *your deliverance is getting near.*"—Luke 21:28.

A perfect government, heaven-based and with heaven's blessing and heaven's power backing it up, will soon take complete control of this earth. In this way God will answer the prayer: "Let your kingdom come." What better news could there be?

Still some persons may say: "How can you be sure? Maybe it is later than many people think. But maybe it is not as late as some persons claim. People have been mistaken about these prophecies before."

The Difference

True, there have been those in times past who predicted an "end to the world,"

even announcing a specific date. Some have gathered groups of people with them and fled to the hills or withdrawn into their houses waiting for the end. Yet, nothing happened. The "end" did not come. They were guilty of false prophesying. Why? What was missing?

Missing was the full measure of evidence required in fulfillment of Bible prophecy. Missing from such people were God's truths and the evidence that he was guiding and using them.

But what about today? Today we have the evidence required, *all* of it. And it is overwhelming! All the many, many parts of the great sign of the "last days" are here together with verifying Bible chronology.

Take a simple illustration: Suppose on a hot day at the beginning of summer, someone told you that winter was coming within a week because he had seen some trees without leaves. But those trees could have died from disease or age. So, by itself that would not be enough evidence that winter was approaching. Especially so when none of the other trees had shed their leaves, when the heat continued day after day, and when the calendar told you it was just the beginning of summer. You
